### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ron Snider on 27 April, 2005.

The application has been amended as follows: in claim 1, replace --said circuit board comprising:-- with --each of said circuit boards comprising:--

The following is an examiner's statement of reasons for allowance: there was little disclosure in the prior art of any particular arrangement of circuit boards in an endoscope with a pair of solid-state image devices. There are claimed a "pair of solid state image pick-up modules set out side-by-side." The specific composition of the circuit boards associated with each module, as claimed by the applicant, was not found in the prior art, particularly "a rear board section... having a width greater than said front board section [which is connected to one of said modules] so as to... overhang a space behind the other [module]."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
